ABOUT ME

Lover of challenges which don't have just one "single possible solution". I believe in team-work as the best path to collaborative learning and true development. Self-motivation and transparency as my main virtues. Interested in backend, frontend or fullstack positions as junior or trainee.

SKILLS

JS JavaScript

 Node.js

 TypeScript

 Socket.io

 Python

B Bootstrap4

 HTML5

 CSS3

 React.js

If you got this far, there is something **you** might want to know...

I might not have everything you are looking for, but if you give me a chance, trust me **I** will not dissappoint you.
