INTERESTS & MORE...

WEB APPLICATION

Pasto a Pasto - Web App (2020 - present)
Pasto a Pasto web app is meant to measure the forage offer level for stockbreeding establishments to optimize their productivity. Driven by **Scrum methodology**, we were able to deploy the **MVP after three weeks. Git & GitHub flow**, **Jira**, **team organization**, **team communication** and **logical creativity** were the foundation stones **for this project.**

CRAFT BEER ENTREPREUNERSHIP

ARCCADIA (2017 - 2019)
Arccadia was built by four very close friends and myself. We started brewing 20lts. per month and reached a maximum of 400lts. per month. We **learned** about **administration**, production, **organization** and **business** but best of all, we **developed** a high **teamwork spirit.**
